## PRODUCT SPECIFICATION SHEET

### GRAPHITE CONCENTRATE – SKALAND FLAKE

|               |   |
|---------------|---|
| Sizing        | + 80 mesh (Minimum of 80% retained on 80 mesh i.e. 180 microns) |
| Grade         | Minimum 95%, 96%, 97%, 97.5% Carbon content by LOI              |
| Specification | +895, +896, +897, + 8975  |
| Moisture      | 0.5% Max  |

Typical Particle Size Distribution (PSD) Shown below: -

| Typical Particle Size Distribution (PSD) |                   |
|--|-------------------|
| Size Fraction                            | Weight % Retained |
| +315                                     | 37.6              |
| +250                                     | 37.7              |
| +212                                     | 22.9              |
| +180                                     | 3.8               |
| -180                                     | 1.1               |

Typical Particle Size Distribution (PSD):

*Note: the commodity is a natural material with some variability around the typical PSD*
