MRC DECLARES SECOND SUCCESSIVE FINAL DIVIDEND

Mineral Commodities Ltd (“MRC” or “the Company”) is pleased to announce that the Board of the Company has declared a second successive final dividend.

The declaration of a final dividend AUD 0.012 per share in respect to the financial year ended 31 December 2016, totaling AUD 4,859,299, follows the payment of a dividend of AUD 0.01 per year for the 2015 financial year.

The declaration is again underpinned by a solid operating performance throughout the 2016 year. The current and forecast cash position of the Company provides for the payment of the declared dividend and further reinforces that returns to shareholders are an important aspect of the Company’s capital management strategy.

Executive Chairman Mark Caruso said that: *“Notwithstanding the challenging industry operating environment experienced in 2016, the continued operational performance of the Tormin mine has allowed for the successive payment of a final dividend. The Company remains encouraged about the turnaround in the heavy mineral sands industry and continues to see strong near-term demand for its full product range, which it believes will continue to underpin ongoing Shareholder returns.”*
